

Pierre Fabre

How to apply to the 2019 PSE-PF Prize

Pierre Fabre ([PF](#)) is the 2nd largest private French pharmaceutical group, and the 2nd largest dermo-cosmetics laboratory in the world. From their very start, Pierre Fabre Laboratories have always explored and used plants as they are convinced of their potential for health and beauty.

In Conjunction with the Phytochemical Society of Europe ([PSE](#)), PF will award a Prize for innovative cross-research in the field of bioactive natural products & in the PF therapeutic domains: Central Nervous System, Oncology, Dermatology and Oral Care.

Applicants for the 2019 PF-PSE Innovation Award are invited to submit a request to IRPF-Prize@phytochemicalsociety.org.

The submission should include:

- 2-4 pages research project/work summary
- 1-2 pages CV of the applicant
- 2 or 3 letters of support from independent referees

Deadline for submission is 31 December 2018.

An IRPF-PSE committee will analyse the submissions and select the awardee before end of February 2019. The laureate will receive a mail notification, and her/his name will be published on the PSE and Pierre Fabre webpages.

One prize will be delivered for the performance of a research project. The 2019 awardee will be invited to the prize-giving ceremony and to deliver an oral presentation during the 2019 PSE Young Scientist Meeting.

This PSE-YSM meeting will be held in Budapest (19-22 June 2019)
